

## Update Instructions: TS501, TS601

### 1. Register Your Tool

You must be a registered user to register a tool. If you are not a registered user, click on **Create an Autel ID**. Follow the instructions to become a registered user and then you can register the tool.

Sign in to <http://pro.auteltech.com>. Click on **Product Registration** and select your tool to register from the drop-down menu. Enter the tool's Serial Number and Password.

To locate the serial number and password, turn on your tool. From the main menu select **Setting** and then **About**. The Serial Number and Password are listed there.

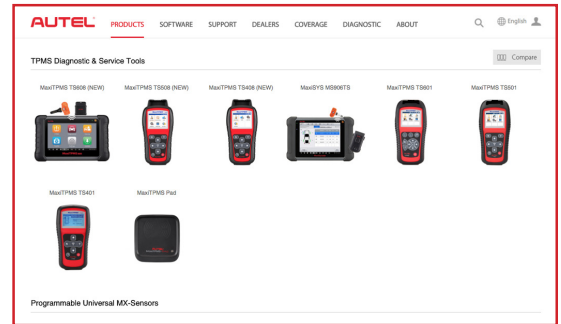

### 2. Download & Install Maxi PC Suite

From [www.maxitpms.com](http://www.maxitpms.com): Select **Products** from the navigation menu. Click on either **TS501** or **TS601** depending on what tool you're updating. On the tool page, click on **Downloads**. Scroll to the bottom of the listing and select **Maxi\_PC Suite\_V1.15.zip**. The program will download to your PC.

OR

From [pro.auteltech.com](http://pro.auteltech.com): click on **Maxi PC Suite**. A chart with a listing of PC software will display. Locate **Maxi PC Suite** and click on **Download**.

### 3. Launch Maxi PC Suite

Locate the zipped file in your download folder and double-click on it. Once extracted, click on the **setup.exe** file to install the application. A MaxiPCSuite Icon will display on your computer. On your PC, double-click on the **Maxi PC Suite icon**. Enter your Autel ID and Password.

Your ID is the password you used to create your Autel account. If you forgot your password, click **Forget Password?** and your password will be emailed to you.

Allow for the update program to load. Click on the **Updates** tab. A listing of the software updates will display.

### 4. Install Files on SD Card

Insert the SD card from your tool into your PC. If a **System Update** is available for the tool, **Download/Install** it first and then proceed with the individual vehicle updates. To download files individually, click on the **Install** button of each desired vehicle manufacturer. Or check the box next to desired vehicle and then click the **Update Selected Items** button. *We strongly recommend that you DO NOT SELECT ALL as this may cause complications while updating.* When you have completed updating the SD card, eject the card and place it back in the tool.
